

ANDREW GARCIA

iOS Developer

THINK BIG, START SMALL, SCALE FAST

I make it my goal to create software with the user in mind, creating applications with a useable and intuitive user interface experience. I also understand the importance of creating highly readable and easily maintainable source code.

EXPERIENCE ▾

+ SOLE IOS DEVELOPER 2016 - Running Hewlett-Packard

Worked as the sole iOS developer and was involved in architecting, developing, and testing an application called HP WorkWise. An app that communicates with a PC app to perform the following features:

- Allows the user to walk to and away from their PC to unlock/lock it.
- Notifies the user when their PC is being tampered with.
- Scans a QR code near a printer then installs the printer driver on the PC.

+ FULLSTACK WEB DEVELOPER 2014 - 2016 Hewlett-Packard

Started as a backend developer working with Ruby on Rails and quickly became the "UI Champion" of my team. Allowing me to work with both front-end and back-end code. Worked on a web app called HP TouchPoint Manager, which allows IT admins to easily manage their devices from one web portal.

EDUCATION ▾

+ LEADERSHIP AND DEVELOPMENT Graduated 2013 Texas A&M

Graduated with a degree that emphasizes the development of leadership capabilities, communication skills, and broad preparation in life sciences.

+ PROFESSIONAL PILOT University of Oklahoma

Studied aviation for two years at OU where I learned to fly single-engine aircrafts and received my pilot's license.
